

One platform for your entire health journey

Helping employees, health plan members, and patients better understand their health, optimize their benefits, address critical care gaps, and improve health outcomes while helping to lower the cost of care.

All together better

Sharecare's well-being, navigation, and clinical advocacy solutions empower individuals with the knowledge, tools, and support they need to live healthier and happier lives.

Through personalized, accessible, and data-driven solutions, Sharecare aims to make a positive impact on every member and community we touch.

One platform

Whole person care

- Healthy, emerging-risk, high-risk
- Everyday to episodic needs

Simplifying healthcare needs

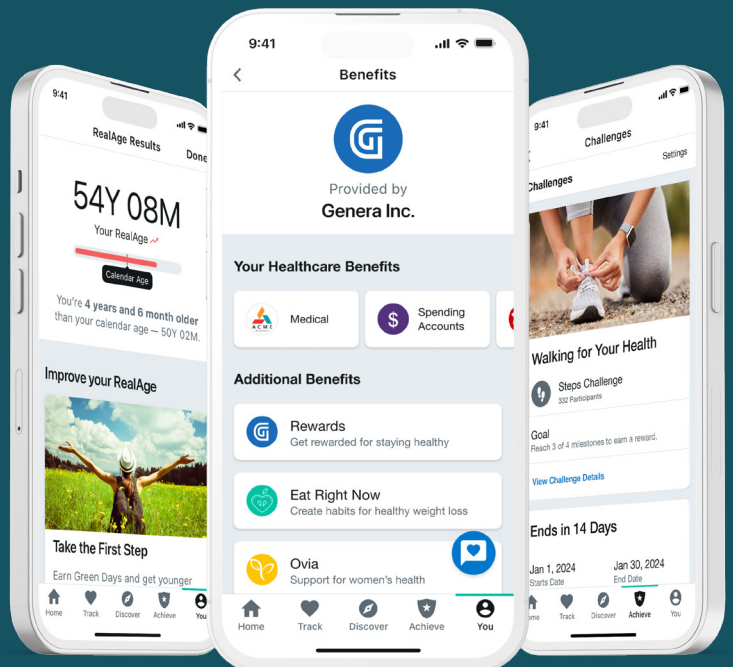

- Wellness/well-being digital front door
- Digital therapeutics
- High touch care
- Whole health advocacy

Building trust through quality

- Consistent and dedicated member experience
- Precision engagement and navigation

Consolidated platform

- Data driven insights across integrated solutions
- Real-time data and outcomes sharing with our clients
- Streamlined operations

Supporting

Large/midsize employers

The Power of Partnership

A case study with a valued advocacy client

A global leader with over 120K employees partnered with Sharecare to provide family and clinical advocacy solutions. They aimed to connect employees to benefits and increase productivity by simplifying benefit navigation. Together, we created a digital platform that engaged members in their health, connected them to partner programs, and offered high-touch care. Sharecare's platform included rewards, guided navigation, and clinical advocates for case management, resulting in high employee engagement, cost savings, and increased efficiency.

48%

of population participating in incentive program

34%

lifestyle risk reduction

34%

of members in high-risk biometric value categories saw improvement from previous year

30K

members engaged with family advocates (67% resolved within 1 day, 34K partner program referrals)

41K+

high quality provider/facility referrals completed (resulting in \$800K+ value)

~3K

clinical interventions with \$800K+ in care gap compliance savings

~36K

total hours saved across employee population

\$1.2M+

\$1.2M+ in time-based savings across employee population

~17.3

estimated work years saved through advocate research and resolution
